SUMMARY

Design engineer working across product design, frontend development, design systems, accessibility, and interaction design. I take products from planning and Figma through React/TypeScript implementation, perform physical device testing, release preparation, and iterative product development. I'm especially interested in products where interface quality depends on understanding the systems and edge cases underneath it.

EXPERIENCE

Founder / Design Engineer

InkVein

February 2026 - Present, Placentia, CA

- Designed and implemented production mobile product systems across UI/UX, React/TypeScript, navigation, accessibility, themes, uploads, Groups, Tasks, Events, and moderation.
- Built and iterated on reusable design system behavior, responsive states, loading/error states, and accessibility preferences.
- Ran Alpha testing and used device/tester feedback to identify and repair product issues.
- Worked across product requirements, frontend implementation, backend constraints, release preparation, and store distribution.

Web Designer / Developer

Cruzn Clean

March 2026 - Present, Yorba Linda, CA

- Designed and developed a client website from discovery through implementation using Figma and modern frontend tools.
- Led weekly design reviews and competitive brand analysis to refine visual direction, usability, and business requirements.
- Built and tested the customer funnel through simulated user flows, final client review, and live payment integration with Stripe.
- Implemented promotional redemption codes and automated email receipt flows, and continue to support ongoing marketing and site improvements.

Designer / Developer

Freelance

February 2026 - March 2026, Placentia CA

- Designed and developed client websites, brand identities, and product interfaces from concept through delivery.
- Managed client communication, project scoping, implementation, delivery, and ongoing site maintenance.
- Explored reusable website templates and small software products as part of a local creative services practice.

PROJECT

Metis

portfolio.zward.studio/work/metis

- product / interaction design

Game Mate

portfolio.zward.studio/work/game-mate

- product / community concept

Ink Bot

portfolio.zward.studio/work/inkbot

- API / automation / bot development

SKILLS

Figma · UI/UX · Interaction Design · Design Systems · Prototyping · Accessibility

TypeScript · React · Next.js · React Native · Tailwind CSS · Radix UI

Python · FastAPI · Django · REST APIs · Backend Architecture

Git · GitHub · Docker · Codex · Bruno · Wireshark

Illustrator · Photoshop · After Effects · InDesign · Blender · Procreate
